

Introducing the range.

Commercial
Vehicles

Welcome to Volkswagen Commercial Vehicles.

It's more than a van to you.

You're more than a customer to us.

Since the introduction of our first commercial vehicle, the Transporter, 70 years ago, Volkswagen Commercial Vehicles have played a key role in the success of practically every kind of business and industry. From the compact Caddy, to the massive Crafter long wheelbase plus with super high roof, every vehicle in our range reflects the original values of the illustrious Transporter.

What's more, Volkswagen Commercial Vehicles have decades of experience in helping customers not only find a perfect van, but also a wide range of services – leading to high residual values and low whole-life costs. Whether a sole trader or a large fleet operator, our desire is to help your business find exactly what it needs – first of all, starting with a stylish and reliable vehicle.

How we can help your business.

Everything for the job and the journey.

When thinking about purchasing a new vehicle, there are a wide variety of questions that need to be considered. What size load does it need to carry? How heavy will the load be? Can the vehicle offer power with economy? And then there are questions about specialist conversions, optional extras, accessories, flexible servicing, speedy parts supply, warranties and finance.

The good news is that we aim to offer you a vehicle that's as closely suited to your specific needs as possible – along with the highest levels of service, support and backup, throughout its working life. As a separate brand within the Volkswagen Group, our staff are fully trained to work on commercial vehicles and to speak your language. In fact, every aspect of our business is geared towards the needs of the commercial vehicle user.

The right van.

We're commercial vehicle experts and finding the right van for your business is what makes us tick. We'll guide you through the range, take you on a test drive and cover all the options.

The right accessories.

From mudflaps to sat navs, plylining to roof racks, we'll work with you to create the perfect van – keeping everything 100% Volkswagen.

The right finance.

Every business is different, so we stay flexible and offer a wide range of finance packages. We'll go through the options to find the one that suits you best.

The right support.

Nothing matters more than keeping you mobile, so our servicing options are built around you. You will also enjoy up to three-years free Roadside Assistance with your new van.

The right service.

We understand it's the little things that make the difference. We'll call you when we say, keep you informed on delivery dates and offer ongoing support long after purchase.

State-of-the-art safety and assistance systems.

Safety and peace-of-mind on the move.

To help ensure every journey ends as stress-free as it begins, every model in the range can be equipped with the latest safety systems – all of which are activated in critical situations as a preventative measure. Add to this a variety of innovative driver assistance systems and you'll discover our vehicles offer high levels of safety and peace-of-mind.

01 Parking sensor display.
02 Rear-view camera display.

Assistance systems.

Adaptive Cruise Control (ACC) and Front Assist.

 Adaptive Cruise Control (ACC) uses a front radar to measure the distance (up to 120m) and speed relative to vehicles driving ahead. It automatically regulates the pre-set distance. ACC also includes the **Front Assist with City Emergency Braking System**. This detects critical distances, warns of hazardous situations and when necessary, triggers emergency braking.¹

Rear Traffic Alert.

 Rear Traffic Alert helps by emitting an audible warning when reversing out of a parking space if another vehicle is getting too close. If the driver fails to respond, the system intervenes and applies braking to help avoid a collision.

Side protection.

 Side protection features side sensors that monitor the vehicle sides and emit visual and audible warnings when approaching walls, pillars, pedestrians or other hazards.

Trailer Assist.

 Trailer Assist automatically manoeuvres the vehicle when fitted with a trailer during parallel and reverse parking.

 **Fog lights with integrated cornering lights** (not illustrated). When turning, these aid the driver in spotting obstacles by illuminating curves and bends in the road ahead.

Park Assist.

 Park Assist aids positioning into parking spaces. When reverse is engaged, the vehicle assumes control of the steering. All that's required of the driver is operate the clutch, accelerator and brake pedals.

Automatic Post-Collision Braking System.

 Automatic Post-Collision Braking System triggers braking after a collision, with the aim of preventing secondary collisions.

 **Electronic Stabilisation Programme (ESP)** (not illustrated). Designed to prevent the vehicle from swerving in critical driving conditions by controlled and targeted intervention in the brake and engine management.

1) At speeds of up to 30kph.

The latest radio and infotainment systems.

Space, comfort and premium equipment.

Every cab in the range offers space, comfort and numerous extras. And, with the addition of the latest-generation radio, navigation and infotainment systems, you'll find every journey is a pleasure.

1) Terms and conditions apply. Please speak to your local retailer for full details.

01

02

03

- 01 App-Connect.** Where compatible, the screen of your smartphone can be shown on the radio system's display.
- 02 Composition Media radio system.** Features a touch-screen size of 6.33" with proximity sensor and up to six speakers.
- 03 Discover Media satellite navigation system.** Builds on the strengths of the Composition Media radio system by adding satellite navigation and an SD card with European map data.

Please note: Not all features are available for every model. Please speak to your local retailer to check availability for a specific model.

Mobile online services.

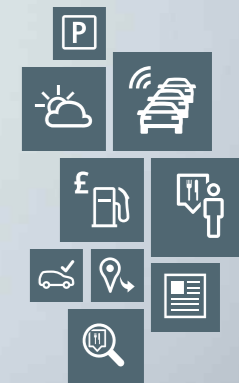

App-Connect.¹

Download special Volkswagen apps to your mobile or tablet, such as 'Shared Audio', 'Drive & Track', 'Call & Remind', 'My Guide' and 'Sound Journey' to make every journey more pleasant and interesting. The apps provide you with information about your driving behaviour, guide you to parking spaces or make suggestions about exciting destinations – all taking into account the weather and traffic data.

Optional Car-Net Guide & Inform.¹

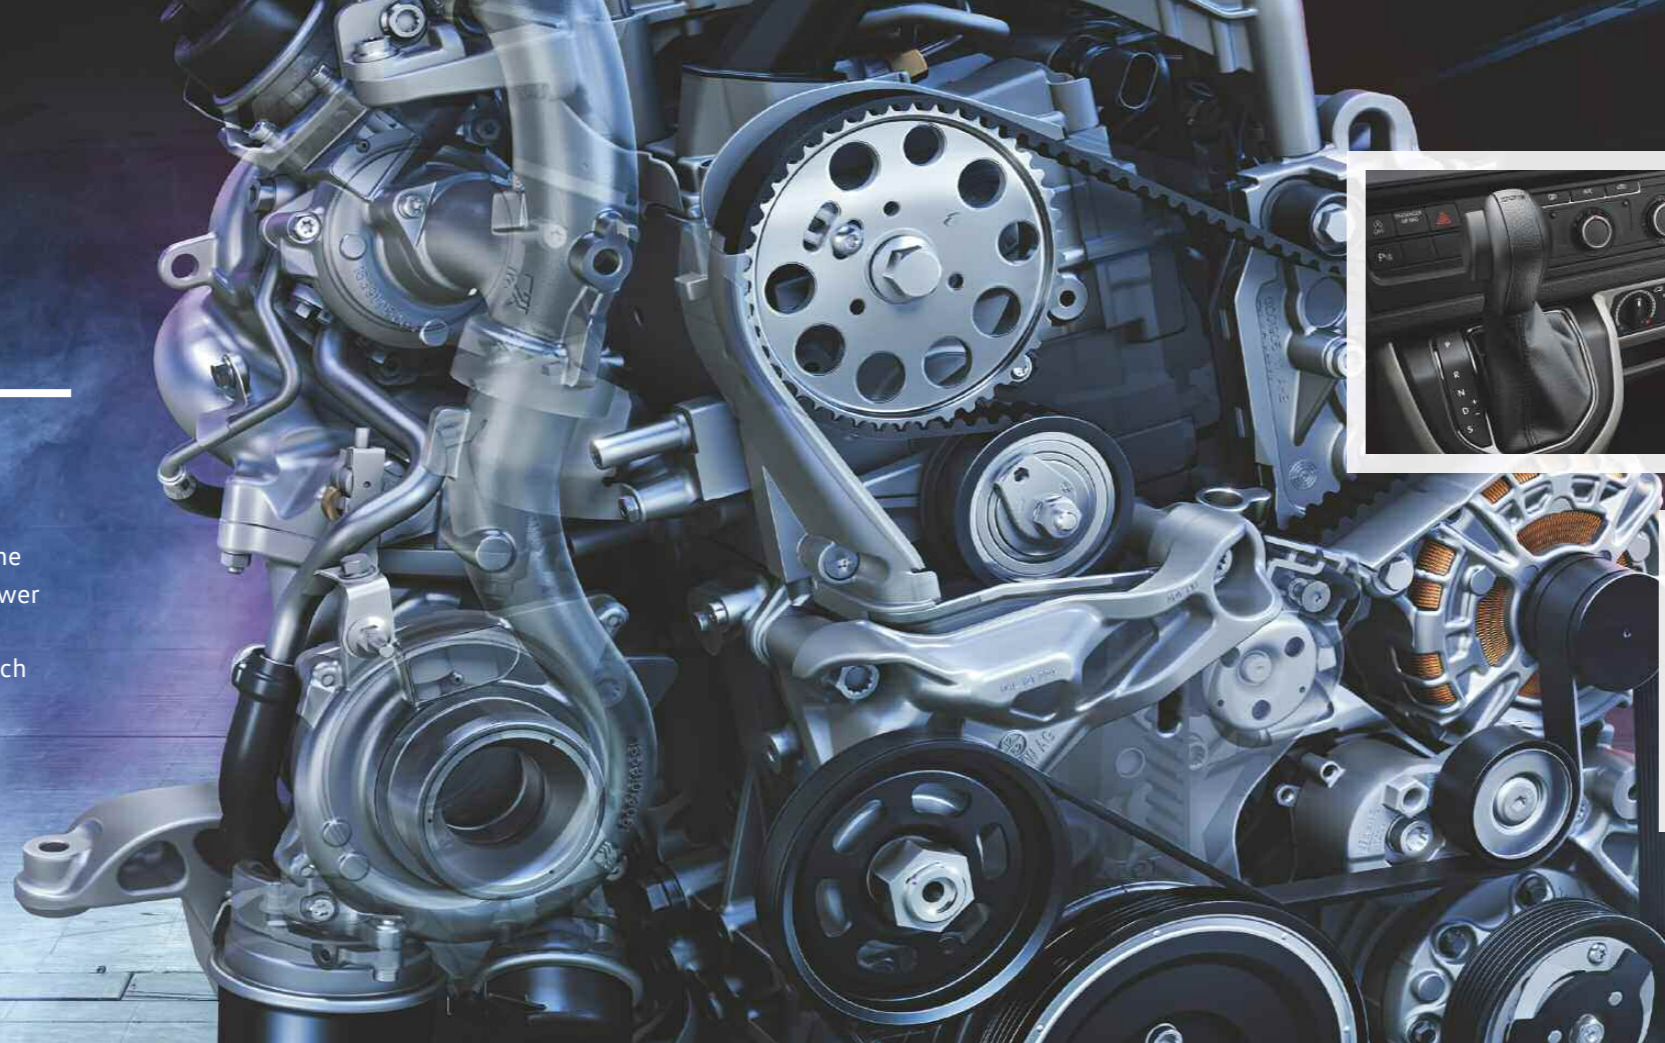

Use Car-Net Guide & Inform to enhance your vehicle's optional Discover Media navigation system with online-based, up-to-date information services for greater convenience when travelling. For example, refuel at the cheapest petrol station, or find a free parking space without the need for an infuriating search. Car-Net Guide & Inform helps you to reach your destination quickly and with the least amount of stress.

A range of TDI and BiTDI diesel engines.

Engines that are designed for the rigours of every-day commercial vehicle life.

Our range of TDI and BiTDI diesel engines conform to the Euro 6 emissions standard and deliver high levels of power and torque with low fuel consumption and CO₂ figures. Whether combined with a manual gearbox, a dual clutch direct shift gearbox (DSG) or an 8-speed automatic gearbox, all engines offer reliability and low running costs – even in the most demanding of conditions.

Dual clutch direct shift gearbox (DSG).

The Caddy and Transporter use a dual clutch direct shift gearbox (DSG). It can be used as a fully automatic gearbox, or as a responsive quick-shift manual. The innovative dual clutch system facilitates an instant gear change which helps to maintain swift and smooth progress.

8-speed automatic gearbox.

The Crafter and Amarok use a slick 8-speed automatic gearbox. While the first gear is optimised for off-road use and pulling-away when towing, the eighth gear is designed as an overdrive to maximise fuel-efficiency, reduce revs and deliver relaxed cruising.

4MOTION all-wheel drive.

Get to grips with hard work.

Available on Transporter, Crafter and Amarok, 4MOTION all-wheel drive offers a number of innovative features to help retain grip, traction, optimum handling and outstanding steering response when encountering poor surface conditions.

Permanent 4MOTION all-wheel drive.

Brimming with technology, 4MOTION reacts to even the slightest wheel slip and distributes power and drive to the wheels with the most grip. All this happens in milliseconds, through control units that are linked to the vehicle's dynamic sensors, engine management system and gearbox.

So which model do you need?

Your van, your timeline, your choice.

You probably already have an idea about what you require from your ideal van and what you'll need to carry. If you're a fleet manager, then you'll no doubt need a variety of options and more than one vehicle. The information featured on these pages is designed to help as a quick guide to which vehicle is the closest match to your specific requirements.

Create the right impression.

For added choice, there's a variety of trimlines available. You're sure to find a vehicle and trimline combination that not only works hard, but also creates the right impression.

Stand out from the crowd.

And remember, that's not all. Every model is available with a wide range of optional extras and accessories – all designed to further help tailor your vehicle to your own particular needs. So which model do you need?

So which model do you need? | 15

Caddy panel van.

Stylish, agile and compact.

So much more than just a stylish, agile, compact and well-built delivery van, the Caddy panel van delivers space in abundance. With a load volume of 3.2m³, it easily carries weights of up to 762kg and accommodates a load length of 1,779mm, load width of 1,556mm (1,170mm between the wheel arches) and load height of 1,244mm. Access at the rear is through two asymmetric wing doors, while a tailgate can be specified as an option. Side access is through a near-side sliding door which allows a width of 701mm and height of 1,097mm. If required, an off-side sliding door can be specified as an option, allowing for easy access to both sides of the vehicle.

TDI diesel engines:

- 75 HP** with 225Nm maximum torque.
- 102 HP** with 250Nm maximum torque.
- 150 HP** with 340Nm maximum torque.

Caddy Maxi panel van.

Delivering space.

The Caddy Maxi panel van offers many of the same great features as the Caddy panel van, but with the addition of more space. With a load volume of 4.2m³ and a longer wheelbase, the Caddy Maxi provides an additional 1m³ of load volume and an extra 470mm of load length – giving up to 2,249mm of usable space. In common with the Caddy, access at the rear is through asymmetric wing doors, which on the Caddy Maxi, feature opaque glazed panels. When it comes to side access, the Caddy Maxi includes near-side and off-side sliding doors as standard.

As an addition to the Caddy, the Caddy Maxi features a full-height solid bulkhead. With eight load-lashing rings, an interior light and hardboard side protection as standard, the Caddy Maxi's load compartment offers the perfect environment for your cargo.

Caddy Maxi kombi.

Perfect for crew and cargo alike.

The Caddy Maxi kombi offers versatility when you need the ability to transport a crew of up to five (including the driver) and their kit. While the cab includes the usual features you'd expect from any Caddy, behind the cab there's seating for three passengers – each fitted with 3-point seatbelts and height-adjustable head restraints. Access to the passenger seating is through twin glazed side sliding doors, while at the rear you'll find a glazed tailgate.

When you simply need to carry cargo, the kombi's flexible interior can be transformed into a spacious delivery van. With the rear seats removed, load volume increases from 1.6m³ to 4.1m³ – only slightly less than the cavernous Caddy Maxi panel van.

Range highlights.

Load volumes, dimensions, payloads, trimlines, engines and more.

- 01 Above cab storage shelf. Standard on every model in the range.
- 02 Leather trimmed steering wheel. Standard on Trendline.
- 03 Cruise control. Standard on 150HP and Trendline.
- 04 Climatic air conditioning. Standard on Highline.

- 11 **Sortimo Autoassistant®.**
- 12 **Sortimo protective flooring.** A safe basis for all storage solutions.

Transporter panel van.

A vehicle like no other.

Designed to work, the Transporter panel van is available with a choice of three roof heights, two wheelbases and four engines. This level of choice and adaptability means you can tailor your van more precisely to the needs of your business. Standard cab seating consists of a single driver's seat with height, lumbar, reach and rake adjustment and a dual passenger seat with storage.

Access to the cargo area is through a single near-side sliding door, which allows a width of 1,017mm and height of 1,282mm and twin rear wing doors without windows. A second, off-side, sliding door can also be specified. To restrain your cargo, the floor area features either six or eight load-lashing rings (depending on wheelbase), ensuring your load is secured as safely as possible.

TDI and BiTDI diesel engines:	
84 HP	with 220Nm maximum torque.
102 HP	with 250Nm maximum torque.

The space to tackle large and difficult jobs.

Helping to make work easier.

All Transporter models provide a spacious load compartment with volumes ranging from 5.8m³ for the short wheelbase low roof, to 9.3m³ for the long wheelbase high roof. While the standard specification includes half-height load side lining, roof lining in painted hardboard and hard-wearing painted floors, it's the Transporter's range of optional door and roof configurations, bulkheads, robust load floor coverings, storage solutions, ventilation and electrical upgrades – not to mention its range of Volkswagen Genuine Accessories®, that help it to tackle virtually any job.

Crafter panel van.

More practical, economical and innovative than ever before.

The new Crafter is a commercial vehicle like no other. As a completely new model, it has been designed by our customers for our customers – built from the ground up using 100% Volkswagen DNA, as a cost-effective, transport-oriented solution to meet the demands of a wide and diverse range of businesses.

Side access is through an extra-wide 1,311mm near-side sliding door, while at the rear its two wing doors easily accommodate a Euro pallet. With impressive economy, payloads and load volumes, you'll discover the Crafter represents state-of-the-art manufacturing, with the sole aim of making it the best commercial vehicle in its class.

TDI diesel engines:

A range of pickups and chassis cabs.

Build on a firm foundation.

Transporter and Crafter single and double cabs form a firm foundation for a wide range of specialist applications and conversions. At the heart of each model sits a strong ladder frame chassis which enables virtually any kind of body to be mounted. If you simply require a straight-forward pickup, then our optional factory-fitted dropside body is more than up to the task. You'll also find a large selection of task-specific factory options.

- 01 Factory-fitted dropside body.** Lightweight and strong aluminium construction with easy-to-operate quick-release fasteners.
- 02 Sturdy ladder frame chassis.** Forms the perfect foundation for a wide range of specialist applications.
- 03 Smooth load bed with entry step on rear tailboard.** Aids access to the rear of the load bed.
- 04 Multiple load-lashing rings.** Conveniently inset into the load bed when not in use.

Warranties, service and finance.

Support, protection and peace-of-mind.

Standard unlimited mileage warranty.

All new Volkswagen vans come with a two-year unlimited mileage warranty (in the case of Caddy, Caddy Maxi and Amarok), or a three-year unlimited mileage warranty (in the case of Transporter and Crafter). The warranty protects your vehicle against the failure of most mechanical and electrical components due to manufacturing defects. For added peace-of-mind, Volkswagen Assistance is included for the duration of the warranty period.

Extended unlimited mileage warranty.

Available on all new vans (or those currently covered by a standard warranty), an extended warranty offers further peace-of-mind against unforeseen vehicle repairs after your standard warranty period has expired. It also helps to extend the life of your vehicle and increase resale value, as your van will receive the best possible care and be maintained in-line with factory specifications. Running consecutively to the standard warranty, there's the option to add either one or two years to the standard warranty period – giving a total cover of 36 or 48 months (for Caddy, Caddy Maxi and Amarok), 48 or 60 months (for Transporter and Crafter).

Paint and body warranty.

The exterior paintwork on all vehicles is covered against manufacturing defects for a period of three years, while body sections and panels are covered against rusting through from the inside for 12 years. Some exclusions apply and the vehicle must be cared for in compliance with the operating instructions found in your owner's handbook.

LongLife Service intervals for diesel engines.

The LongLife Service regime is so called because there are no set service intervals. The interval between services, depending on how you drive your vehicle and the conditions of use, can be anywhere up to a maximum of approximately 40,000km or 24 months (whichever comes first) for the Transporter, Crafter and Amarok, while the Caddy has intervals of anywhere up to a maximum of approximately 30,000km or 24 months (whichever comes first). The Service Interval Display in the instrument panel will indicate when a service is required.

Time/Distance service intervals for diesel engines.

If you would like a more traditional service interval, your vehicle can be adapted by an authorised Volkswagen Commercial Vehicles retailer to the Time/Distance interval. This can be done at the point of vehicle sale or when an inspection service is carried out. An oil change is required at every 15,000km on the Time/Distance interval.

Volkswagen Assistance.

Every new Volkswagen commercial vehicle benefits from an unlimited mileage, comprehensive recovery and assistance package, operating 24 hours a day, 365 days a year, across the Republic of Ireland and Europe. The duration of cover compliments your vehicle's warranty period.

Service Plans.

When it comes to servicing your commercial vehicle, no one likes unwelcome surprises. That's why we've introduced the Volkswagen Commercial Vehicles Service Plan, which offers total peace-of-mind for a period of three years or up to 160,000km (for Transporter, Crafter and Amarok), or three years or up to 120,000km (for Caddy and Caddy Maxi). There are two great packages on offer – 'Service', which covers all standard service items and 'Service Extra', which adds up to two front and rear brake pad changes, replacement wiper blades and a single front and rear brake disc change. Purchasing a Service Plan couldn't be easier, with the option to either pay monthly, or as a single up-front payment.

Options and Volkswagen Genuine Accessories®

We know that no two businesses are the same. To this end, we have developed an extensive range of factory-fitted options and Volkswagen Genuine Accessories®, so that your vehicle can be enhanced with your own requirements in mind. And remember, all Volkswagen Genuine Accessories® are designed to deliver a perfect fit, first time, every time and feature a comprehensive two-year warranty for added peace-of-mind.

Volkswagen Genuine Parts®.

When you fit replacement parts to your vehicle, you need to know that they'll stand the test of time. Volkswagen Genuine Parts® are constructed to the highest standards and feature a two-year warranty.

Personal Contract Plan solutions.

Ireland's only commercial vehicle PCP solution.

PCP explained.

Volkswagen Commercial Vehicles have the only commercial vehicle Personal Contract Plan (PCP) solution in Ireland. It's a flexible finance package that combines lower monthly payments with real flexibility over a two or three-year period. Thanks to a Guaranteed Minimum Future Value (GMFV), you don't need to worry about the re-sale value of your van at the end of your agreement, depreciation or the maintenance costs associated with owning a van for over a longer period of time. Under Volkswagen PCP Solutions, Volkswagen Bank Ireland¹ purchases the van on your behalf. You choose a deposit percentage between 19% to 33%. You then pay agreed monthly instalments over a two or three-year period.

At the end of the agreement you have three options:

- 1 Part exchange for a new Volkswagen commercial vehicle.
- 2 Pay or refinance the optional final payment.²
- 3 Return your vehicle with no further payments.³

1) Volkswagen Bank GmbH Branch Ireland is authorised by the Federal Financial Supervisory Authority in Germany and regulated by the Central Bank of Ireland for conduct of business rules.
2) Refinancing of optional final payment (GMFV) is subject to credit approval.
3) Potential outstanding VAT liability, subject to acceptable return standards. Terms and conditions apply.

This brochure supersedes all previous publications.

Issue: June 2017

Please note: From time-to-time, Volkswagen Commercial Vehicles may run promotions which affect the warranty periods as specified above. Some of the vehicles shown are fitted with accessories and optional equipment at extra cost and may not reflect current Republic of Ireland specification. All data given and specifications are in accordance with information available at the time of going to print and are subject to change without notice. Payloads shown are subject to change depending on optional extras and engines specified. Vehicles not in current Republic of Ireland stock and customer order vehicles may take a number of weeks for delivery. Certain combinations of vehicle specifications and factory-fitted extras are not compatible and therefore all orders received are subject to confirmation. Models, factory-fitted options and paint and upholstery options are subject to availability. Please check details and availability with an authorised Volkswagen Commercial Vehicles retailer at the time of ordering.
