The new Multivan

Brochure

The new Multivan

A new era will begin in Spring 2022 for Volkswagen Commercial Vehicles with the new Multivan, which replaces the Caravelle 6.1. With an exterior designed to pay homage to its predecessor and a plug-in hybrid powertrain available, it opens an exciting new chapter. Built with safety and convenience in mind, the new Multivan will feature a huge range of digital and connected services as well as 34 driver- assist systems.

Hybrid power

For the first time in a Volkswagen Commercial Vehicle, the new Multivan will be available as a plug-in hybrid. The new Multivan eHybrid is equipped with a 1.4 TSI 150HP engine complemented by a 85kW electric motor produces a combined power output of 218HP to give you silent, zero-emission driving on shorter trips while also providing the flexibility to take on longer journeys. It features a bespoke 6-speed DSG gearbox. The new Multivan's 13kW lithium-ion battery is stored under the flat floor, maximising interior space and creating a lower centre of gravity for superb handling. And when you need to top up the battery, all you need to do is plug into a charger.

Eye-catching exterior

The timeless design of the new Multivan not only follows in the footsteps of its predecessors, but also reinterprets the traditional design. A chrome strip runs centrally* from the headlights to the rear of the new Multivan, emphasizing the distinctive two-tone finish. The refined lighting design with the IQ.Light LED matrix headlights* is complemented on the exterior by the standard LED taillights and the projection light – because your new Multivan welcomes you and projects the Multivan silhouette* onto the floor as you enter. The new exterior appearance is complemented by a large range of colors and rims, including the new 19-inch rims*, allowing you to personalize your new Multivan completely.

* Optional Extra

Uniting aesthetics and safety

The new IQ. Light LED matrix headlights* with LED daytime running lights are not only an eye-catching feature that makes the new Multivan stand out from the crowd, but they're also incredibly intelligent. This is because the lighting control system detects the driving circumstances and changes the dipped beam to the main beam. The functional equipment also incorporates "Dynamic Light Assist," a glare-free dynamic main beam control, which ensures optimal road illumination. When the IQ.Light senses oncoming traffic, it may turn off individual light beams to avoid blinding oncoming vehicles. And the light doesn't just think. The dynamic cornering light illuminates the bend even before you turn, thanks to advanced camera and radar sensors. As a result, the clever technology ensures that you can focus solely on what matters: driving.

* Optional Extra

Elegant interior

The new Multivan's interior design is interlaced with high-quality materials, giving it the polished feel of a premium vehicle. The free-floating, optimized instrument panel with its digital display offers a neat, high-class appearance. The standard multifunction leather steering wheel, with 100% Tiptronic, leaves virtually nothing to be desired. Furthermore, the new Multivan has an interior to fit your preferences. You can choose the colours in which you want your interior to glow with the multicolor ambient lighting system*. Whether a white light for discovering lost goods, a warm yellow tone for a quiet evening, or a brilliant play of hues - Your vehicle, your lighting design.

* Optional Extra

Improved security at a high level

Your new Multivan is not only extremely comfortable and well-connected, but it is also extremely safe. Because they are exceptionally smart and operate with foresight, the new IQ.Light LED matrix headlights* 5 with high beam control and cornering lights illuminate the road even better. Furthermore, there are more than 20 assistance and safety systems. In connection with the automatic distance control ACC*, Car2X*, for example, is standard on board, allowing interaction with other networked vehicles and the networked infrastructure in order to warn of potential threats at an early stage. The 360-degree "Area View"*** makes its debut in the new Multivan, which can provide a true all-around view from a bird's eye perspective. This also raises safety to a new level when parking. Your new Multivan - combines convenience with safety.

* Optional Extra

Connected Infotainment

Radio "Ready 2 Discover " (Standard on Multivan & Life)

- 25.4 cm (10 ") color touch display incl.
- Digital radio reception (DAB +)
- Smartphone integration
- Media storage basic (32 GB) and media control

Also optionally available:

- "Comfort" mobile telephone interface with inductive charging function
- Additional functions (e.g. navigation)

Radio "Ready 2 Discover " incl. Streaming & Internet (Standard on Life) (Optional on Multivan)

Device structure and functions in addition to radio
"Ready 2 Discover ":

- 25.4 cm (10 ") color touch display incl." Streaming & Internet "
- Digital radio reception (DAB +)
- Smartphone integration
- Media storage basic (32 GB) and media control

Also optionally available:

- "Comfort" mobile telephone interface with inductive charging function
- Additional functions (e.g. navigation)

"Discover Media" navigation system (Standard on Style) (Optional on Multivan & Life)

Device structure and functions in addition to radio
"Ready 2 Discover ":

- Hybrid navigation function
- Prepared for "We Connect" and "We Connect Plus" (1 year)

Also optionally available:

- "Comfort" mobile telephone interface with inductive charging function

Wired & Wireless App-Connect

App-Connect from Volkswagen Commercial Vehicles enables safe and convenient use of selected smartphone Apps via the infotainment system and is now also available in the new Multivan. App-Connect is standard on all trimlines with connection via USB interface (wired) or with wireless connection (wireless).

The apps and their content are shown on the touch display of the Infotainment system and can be viewed from there can be operated conveniently and clearly e.g Music, news, maps or audio books to fall back on.

App-Connect includes the technologies MirrorLink®, Apple CarPlay™ and Android Auto™.

New equipment details

Particularly ergonomic

Touch control module for light and visibility.

The conventional rotary switch for the light was used by all models through a specially designed new touch control module to the right of the steering wheel. The module represents a characteristic element of the new design and functionality concept.

The functions:

- Operation via capacitive keypads
- Low beam / parking light
- Fog lights / bad weather light
- Rear fog light
- Heated windscreen / heated rear window
- Control light mode

The customer benefits:

- Central control of the light and visual functions
- Better clarity and improved user ergonomics
- Tidy interior
- Modern design

Direct entry key module

Via direct entry buttons in the center below the infotainment display arranged operating modules functions are called up in the control panel of the display.

The operating module has the following direct access keys occupied:

- Driver assistance systems (ASSIST)
- Air conditioning, heating and fresh air system (CLIMA)
- Assistance systems for parking and maneuvering (MENU)

The customer benefits:

- Central and clear operation of all relevant functions

Electronic parking brake with auto-hold function

The electronic parking brake replaces the conventional handbrake via a button in the center console. Indicator lights in the button and in the instrument cluster show whether the parking brake is activated. Likewise, a working noise conveys that the brake is closed.

The integrated auto-hold function secures a separate Button the vehicle to prevent it from rolling away when stationary, without the vehicle must be stopped with the foot brake. If the vehicle starts or the requirements for the car Hold function are not fulfilled, the hold is terminated.

The customer benefits:

- Simple operation via one button
- Additional security through the auto hold function
- More storage space between the front seats by eliminating them of the handbrake lever

Range of interiors

1. Seat Trims "Bright Dots" in bi-colour fabric
(**standard on Multivan**)

2. Seat trims "Ribella" in bi-colour fabric
(**standard on Life**)

3. Seat trims 'ArtVelours' in bi-colour microfleece
(**standard on Style**)
(*optional on Life*)

4. Seat trims 'Savona' in bi-colour leather
(*optional on Life*)
(*optional on Style*)

Choose your trimline.

Multivan

Exterior

- 17" 'Dundrod' alloy wheel 6.5J X 17, Silver
- LED headlamps with LED separate daytime running lights
- LED rear combination lamp
- Exterior mirror housing in High-Gloss Black
- Separate daytime running light with automatic headlight control, exit lighting and entry lighting
- Manual sliding doors in passenger compartment

Interior

- 2 USB interfaces (type C) in the centre console in cab
- Air conditioning system with manual control
- Armrest for driver and single front passenger seats
- Decorative inserts "Scale Light Gray"
- Drawers under the seats in the passenger compartment and 2 waste bins
- Leather-covered multifunction steering wheel with shift paddles
- Reinforced carpet floor covering in passenger compartment
- Seat Trims "Bright Dots" in bi-color fabric

Audio & Communication

- App-Connect incl. App-Connect Wireless
- DAB+ digital radio reception
- Digital Cockpit 'Pro'
- Radio "Ready 2 Discover" with 10" (25.4cm) color touch screen
- Voice control including Alexa web app

Safety

- Airbag - driver's and passenger's airbag with front passenger's airbag deactivation
- Anti-theft alarm system with interior monitoring, backup horn and towing protection
- Central locking system "Keyless Start" with SAFELOCK
- Driver alert system
- Emergency call control unit with eCall
- First aid kit with warning triangle and safety vest
- Windshield wiper intermittent control with rain sensor

Driver Assistance

- "Front Assist" auto. emergency braking with pedestrian and cyclist monitoring
- "Lane Assist" lane keeping system
- Dynamic road sign display
- Cruise control system incl. speed limiter
- Lights & Vision package
- Park distance control (front & rear)
- Swerve support and oncoming vehicle braking when turning

Choose your trimline.

Life

(in addition to Multivan)

Exterior

- Moulding between headlamps painted in 'Glossy Black' with 2 chrome strips
- Sliding doors in passenger compartment incl. power latching
- Tailgate incl. power latching

Interior

- 2 single seats in driving direction in 2nd row of seats
- 3 single seats in 3rd row of seats
- Acoustics package 'Extra' for cab and passenger compartment
- Air conditioning system with manual control, with auxiliary heater for passenger compartment
- Decorative inserts "Dark Silver Brushed"
- Laminated safety glass windshield, heat and sound-insulating
- Seat trims "Ribella" in bi-colour fabric
- 30-colours interior ambient lighting
- Velour floor mats in driver cab (Titanium Black)

Audio & Communication

- Radio "Ready 2 Discover" with 10" (25.4cm) color touch screen incl. Streaming & Internet

Safety

- Side and curtain airbag for driver and front passenger, curtain airbag for outer seats in rear, centre front airbag

Driver Assistance

- "Light Assist" high-beam control
- "Poor Weather Lighting" package
- Dynamic headlight range control
- Rear view camera system

Choose your trimline.

Style

(in addition to Life)

Exterior

- 'Multivan' logo silhouette projection incl. surround lighting in door area
- 18" 'Toshima' alloy wheels 7.5J X 18, Silver
- Chrome trims on exterior
- Dark-tinted windows in the rear seat area, heat-reflecting and 65% light-absorbing privacy glass
- Illuminated molding between headlamps
- IQ.LIGHT - LED matrix headlamps with separate daytime running lights
- Dual power sliding doors in passenger compartment
- Tailgate (power operated with 'Easy Open' and 'Easy Close' feature)

Interior

- "Climatronic" 3-zone air conditioning system with additional control panel in passenger compartment
- 2 USB-C ports in front, 4 USB-C charging sockets in the passenger compartment
- Additional interior noise suppression measures 'Plus'
- Decorative inserts "Dark Woodgrain Optic"
- Glove compartment with illumination
- Heated seats in cab (left & right), separately controllable
- Interior loading edge protection (stainless steel)
- Laminated safety glass windshield, heat and sound-insulating (heated)
- Multi-function table/ centre console with 3 beverage holders, slidable in the entire vehicle
- Pedal cluster with stainless steel caps
- Seat trims 'ArtVelours' in bi-colour microfleece
- Sliding windows in sliding doors

Driver Assistance

- "Area View" incl. rear view camera system and "Park Assist"
- "Park assist" with park distance control (front & rear)
- "Side Assist" lane change system incl. blind spot monitoring, rear traffic alert and exit warning system
- Adaptive cruise control (ACC) "stop & go" incl. speed limiter and V2X
- Dynamic headlight range control with dynamic cornering light

Safety

- Central locking system "Keyless Entry" without SAFELOCK

Audio & Communication

- 'Comfort' mobile phone interface with inductive (wireless) charging feature
- Navigation system "Discover Media" with 10" (25.4cm) colour touch screen

Volkswagen We Connect

The latest generation of digital services

We Connect

We Connect provides vehicle-related online Services from Volkswagen Commercial Vehicles. The services are available from radio "Composition" ¹⁾ 2)

The "We Connect" package is the entry point into digital Services from Volkswagen Commercial Vehicles and equips the vehicle with integrated connectivity. We Connect offers one-time activation as a license package numerous helpful basic functions online with no runtime restrictions.

The customer benefits:

- Faster help in the event of a breakdown
- Simple retrieval of driving data, vehicle status and vehicle condition via smartphone
- Easy to find the parked car again

We Connect Plus

We Connect Plus offers add-on license packages additional smart functions of intelligent navigation with Real-time information via media streaming and web radio to using the smartphone as a remote control for practical vehicle functions (duration 1 to 3 years). Available from the "Discover Media" navigation system.

The customer benefits:

- Optimal, situational route guidance natural voice control
- Remote control of functions such as auxiliary heating or vehicle locking
- Easier to find a parking space

Coming Soon

We Connect Fleet

With the "We Connect Fleet" add-on business package Volkswagen Commercial Vehicles commercial customers a simple solution to make small and medium-sized fleets efficient manage. We Connect Fleet allows via the web portal quick and uncomplicated access to the most important vehicle and fleet information. Characteristic Services are u. a. digital logbook, digital fuel log, consumption analysis and maintenance management. Available from Radio "Composition".

The customer benefits:

- Improved predictability
- Shorter downtimes
- Comprehensive cost control
- Relief for fleet managers and drivers

Apple App Store

Google Play Store

1) To use the We Connect services, the customer needs a Volkswagen ID user account and must log in to We Connect with a username and password. Furthermore, a separate We Connect or Conclude a We Connect Plus contract with Volkswagen AG online. 2) Depending on the time of use.
