Vehicles

# The Transporter 6.1 Brochure

## Volkswagen Commercial Vehicles' Van Centres. **Working with you.**

### **It's more than a van to you.**

#### **You're more than a customer to us.**

We know that when you choose Volkswagen Commercial Vehicles, you're looking for more than just four walls on four wheels. You want a van that looks after itself while you take care of business. A vehicle that makes a statement, as well as a delivery. An investment for the future that makes a difference today.

### **To us, you're a partner.**

By being there to get to know how you work and what you need, we can offer you more – supporting your plans year after year. It means a partnership that lasts as long as your ownership, with a vehicle and a team that's with you for the journey.

### **Our dedicated network of Van Centres.**

Over **20 Dealerships** and **40 Authorised Repairers** means you're only around 45 minutes on average from our door.

## **Everything for the job... ...and the journey.**

### **The right van.**

We're commercial vehicle experts and finding the right van for your business is what makes us tick. We'll guide you through the range, take you on a test drive and cover all the options.

### **The right accessories.**

From mudflaps to sat navs, plying to roof racks, we'll work with you to create the perfect van – keeping everything 100% Volkswagen to aid high residuals.

### **The right finance.**

Every business is different, so we stay flexible, with a range of finance packages to choose from. Depending on your preference, we'll go through the options to find the one that suits you best.

### **The right support.**

Nothing matters more than keeping you mobile, so our servicing options are built around you. You'll also enjoy three-years' free Roadside Assistance with your new van.

### **The right service.**

We understand it's the little things that make the difference, so we set high standards. We'll call you when we say, keep you informed on delivery dates and support you long after purchase.

### **And there's more...**

We offer a lot more than you might think. From cost-effective van rental or an air conditioning recharge, to a wide selection of premium and budget replacement tyres, if we're not able to help, we'll try and point you in the right direction!

The icon, updated  
The Transporter

# 6.1

#### **The original.**

The award-winning Volkswagen Transporter has led the way for over 70 years, continually setting the benchmark in its class and selling over nearly twelve million units worldwide.

#### **Impressive range of variants.**

The Transporter 6.1 is available as a panel van, with Startline, Trendline and Highline trim levels, and short and long wheelbase options, offering solutions for a vast range of tasks. On long wheelbase models, a high roof option is also available.

#### **Proven quality.**

As you'd expect, the Transporter 6.1 is durable, versatile and built to last, with a highly stable body, quality materials and time-honoured workmanship.

#### **New on-board electronics.**

Optional Function control unit for customer-specific equipment configurations and electromechanical power steering. The electromechanical power steering offers active and adaptive support in almost all driving situations and provides the basis for a wealth of innovative driver assistance systems.

#### **State-of-the-art driver assistance systems.**

Front Assist with City Emergency Braking System, Driver Alert, Brake Assist and Crosswind Assist are fitted as standard. Optionally available are Park Assist including Side Protection, Active Lane Assist including Rear Traffic Alert and Trailer Assist. A rear-view camera is also available as an option for the first time in configuration with rear wing doors.

#### **Optimum space utilisation.**

The Transporter 6.1 panel van load space is up to 2,975mm long, with up to 1,940mm high loading area\*, plenty of cab space and the ability to separately lock the cargo compartment and cab.

#### **Optimum off-road capability.**

The Transporter 6.1 is available to order with 4MOTION all-wheel drive, dual clutch gearbox DSG, Hill Descent Assist, Hill Hold Assist and mechanical differential lock4

#### **Provide impressive off-road capability.**

Customised for almost all requirements. Our recognised converters and industry-specific conversion manufacturers can customise your Transporter 6.1 panel van to your specific needs.

### Optimised, ergonomic driver's workplace.

A fully adjustable steering wheel, driver's seat with 4-way lumbar support, durable and robust new upholstery, newly designed dashboard and excellent all-round visibility transform the driving experience.

### Upgraded standard equipment.

In addition to many other new standard features, all vehicles now have a radio system with integrated hands-free Bluetooth®, App-Connect and USB (type-C) interface along with LED interior lighting.

### Excellent connectivity.

The latest radio and navigation systems\* with up to 9.2 inch touch-screens, full online connectivity, thanks to an integrated eSIM card, driver assistance systems and wireless smartphone charging\*.

### Robust, contemporary interior.

New cockpit: dash panel, door, side and seat trim panels are finished in stylish Dark Anthracite that doesn't show dirt.

Instrument cluster 01

Multi-function display Plus 02

Discover Media navigation system 03

Two-part stowage compartment 04

12V socket 05

Lockable glovebox 06

Folding rule compartment 07

Open stowage area 08

Drink's holder 09

\*Optional at extra cost.

Image shown is for illustrative purposes only. Vehicles shown are not Irish specification.

### Park Assist **NEW**

Park Assist aids positioning into parking spaces. When reverse is engaged, the vehicle assumes control of the steering. All that's required of the driver is to operate the pedals, whilst keeping a good lookout.

### Side protection. **NEW**

As part of Park Assist, Side protection monitors the vehicle's sides and alerts you with visual and audible warnings if you're getting too close to other vehicles, pillars, walls or pedestrians.

### Crosswind Assist. **NEW**

As part of the standard Electronic Stabilisation Programme (ESP), Crosswind Assist applies adaptive braking intervention when the vehicle Driving the Transporter 6.1 offers high levels of safety encounters a strong crosswind.

Intelligent driver assistants give you peace of mind.

Driving the Transporter 6.1 offers high levels of safety and peace of mind, thanks to a host of standard and optional driver assistance systems. Whether you require assistance when parking, driving, changing lanes or towing a trailer, the latest assistants monitor the situation,

### Adaptive Cruise Control (ACC)

Optional on all trims. Adaptive Cruise Control uses a front radar to measure the distance (up to 120 metres) and speed relative to vehicles driving ahead. It automatically regulates the pre-set distance. ACC also includes the Front Assist with City Emergency Braking System. This detects critical distances, warns of hazardous situations and when necessary, a speed of up to 18mph triggers emergency braking.

### Traffic Sign Recognition. **NEW**

Detects road signs and informs the driver. Optionally available in combination with the Discover Media navigation system.

### Active Lane Assist. **NEW**

Active Lane Assist countersteers the vehicle if the driver unintentionally drifts from a lane. The system also emits audible and visual warnings via the multi-function display to alert the driver of danger.

### Rear Traffic Alert. **NEW**

As part of Active Lane Assist, Rear Traffic Alert helps by emitting an audible warning when reversing out of a parking space if another vehicle is approaching. If the driver fails to respond, the system intervenes and applies braking to help avoid a collision.

### Tyre pressure monitoring system.

Displays the current pressure for every tyre and warns of deviations from the set pressure.

### Your van.

You probably already have an idea about what you need from your ideal van and what you'll need to carry. Likewise, you're sure to have an idea about what's the heaviest, tallest, widest or longest load you'll need to get into your vehicle. If you're a Fleet Manager, then you'll probably need a variety of options and maybe more than one vehicle. Bearing these factors in mind, the information featured on these pages is designed to help as a quick guide to which vehicle may be the closest match to your own specific requirements.

### Three trimlines.

There are three trimlines available, from the robust Startline to the luxurious Highline, each delivering its own distinct feel and offering solutions for a vast range of tasks.

### Your choice.

And remember, that's not all. Every Transporter is available with a wide range of options and accessories – all designed to further help tailor your vehicle to your own particular needs.

### So which model do you need?

#### How to select your van:

1. Think about the maximum length and height of your load. This will help you choose a wheelbase and roof height.
2. In the Technical information section you'll see payload ranges. Think about the heaviest load you need to carry. This will help you choose what's suitable (for instance a T30).
3. From the three trimlines available, decide which one is right for you.
4. Take a look at the Price list information section to discover which engines and options are available for your chosen van.

## So which model do you need?

# Choose your van.

#### Short wheelbase normal roof.

Load length<sup>1</sup>: 2,572mm  
Load width: 1,700mm  
Load height: 1,410mm

**5.8m<sup>3</sup>**  
load area volume.

#### Long wheelbase normal roof.

Load length<sup>1</sup>: 2,975mm  
Load width: 1,700mm  
Load height: 1,410mm

**6.7m<sup>3</sup>**  
load area volume.

#### Long wheelbase high roof.

Load length<sup>1</sup>: 2,975mm  
Load width: 1,700mm  
Load height: 1,940mm

**9.3m<sup>3</sup>**  
load area volume.

<sup>1</sup> Please note: load length is based on vehicles without a bulkhead. The bulkhead can be removed at no extra cost.

So which model do you need?

## Choose your Access.

### **Tailgate without window.**

Allows convenient loading and unloading with a large opening height of maximum 2,200mm.

### **Rear wing doors.**

Standard on panel van models and any model ordered with a high roof.

### **High partition, closed.**

Fully separates the load compartment from the cab.

### **Tailgate with window.**

Improves visibility to the rear thanks to a particularly large window.

### **Electric tailgate.**

Can be operated with the vehicle key for convenient and safe handling. Sensors detect whether the tailgate has sufficient space to open and the roll-back function stops the tailgate from closing if it encounters an obstacle.

*Not available on Startline panel van models.*

### **Partition, high with window.**

The window is made of safety glass. Optional on panel van.

# Audio & Communication.

## 01 Composition Colour DAB+ radio system.

Fitted as standard, the Composition Colour DAB+ radio system features a 6.5 inch TFT touch-screen colour display, two USB (type-C) ports, Bluetooth®, SD card slot and four speakers delivering 20 watt output. It also features App-Connect, an integrated eSIM and mobile online services as part of We Connect and We Connect Plus.

## 02 Discover Media DAB+ satellite navigation system.

The optional Discover Media satellite navigation system features an 8 inch colour touch-screen with proximity sensor. The system also includes a 32GB media storage, natural voice control, free map updates via the internet and mobile online services with Volkswagen We Connect Plus, wireless App-Connect3 and integrated eSIM.

## 03 Discover Media Pro DAB+ satellite navigation system.

The optional Discover Media satellite navigation system features an 9.2 inch colour touch-screen with proximity sensor. The system also includes a 32GB media storage, natural voice control, free map updates via the internet and mobile online services with Volkswagen We Connect Plus, wireless App-Connect3 and integrated eSIM.

# We Connect<sup>1</sup> and We Connect Plus<sup>1,2</sup>

With Volkswagen We Connect<sup>1</sup> driving a van will now be even more digital, closely integrated and comfortable. A wide range of services gives you quick access to the Transporter 6.1 – conveniently via your smartphone. The heart of the system is the We Connect<sup>1</sup> App. It connects your smartphone to the vehicle with an integrated eSIM card. The standard We Connect<sup>1</sup> package includes various vehicle reports, useful tools for service planning and a breakdown call. Also included: the parking position finder, which guides you directly to the vehicle. You can add many other services with the We Connect Plus<sup>1,2</sup> package. For example, using your smartphone, the online anti-theft warning system immediately sends a message to the mobile phone in the event of burglary attempts, and thanks to online map updates, the map material is always up to date. To take advantage of these exclusive services, you can register today with the We Connect<sup>1</sup> Portal. Once your vehicle has been activated, you can access the full range of Mobile Online Services.

<sup>1</sup> To use We Connect services, you need a Volkswagen ID user account and must log in to We Connect with your user name and password. A separate We Connect contract or We Connect Plus contract will also need to be made online with Volkswagen AG. For We Connect Plus you have 90 days after the handover of the vehicle to register the vehicle on [www.portal.volkswagen-we.com](http://www.portal.volkswagen-we.com) and can use services free during this time. <sup>2</sup> Free of charge for the first year when you order Composition Colour or Discover Media navigation system. There is an extra charge in the event of renewal once the free period has expired. <sup>3</sup> Only in combination with the anti theft alarm system. Standard on Highline models, optional on Startline models. <sup>4</sup> The Lock & Unlock service is a security feature and requires a prior identity check by means of the Volkswagen ID procedure. This involves your identity being checked by a Volkswagen dealer or via video chat. <sup>5</sup> Available from April 2020. <sup>6</sup> Only available in conjunction with the Discover Media navigation system and Streaming & Internet package. Optional at extra cost. The scope of services of We Connect and We Connect Plus may vary and can be used at a later date. <sup>7</sup> Only in conjunction with the Discover Media navigation systems. Optional at extra cost.

Anti-Theft Alarm System with Interior Monitoring in Cab, Back up Horn & Towing Protection	Z4G
Heated rear window with rear wiper	4HS
Second AGM battery with cut-off relay 92Ah 520A	8FB
Tyre pressure monitoring system (as per EU type approval)	7K1
Tyre pressure monitoring system (direct measurement)	7K3
First aid kit with warning triangle and safety vest	1T9
Function Control Module 1	IS4
Terminal Block	IS1
Terminal Block and Function Control Module 1 with Body Builder Programming	IS2

# Optional Extras

## Highline

Description	PR Code
Terminal Block and preperation for Function Control Module	IP4
Terminal Block with Function Control Module 2 and Body Builder Programming	IS7
Lashing rings for load restraint system	6B4
Interior loading edge protection in plastic and black loading edge protection on bumper	2P4
Interior loading edge protection in plastic and silver loading edge protection on bumper	2P6
Mudflaps (Front & Rear)	6N2
Digital Cockpit and Driver Alert System	ZEQ
Multi-Function Display “Premium” with Multi-Colour Display & Driver Alert System	ZEO
Full bulkhead with fixed window including 8 lashing rings for load restraint	ZZ3
Full bulkhead with sliding window including 8 lashing rings for load restraint	ZZ4
Half-height partition	3CD
Without partition	3CA
Electric tailgate without interior release	ZEH
Rear wing doors with heated windows (deletes rear hook)	ZH1
Tailgate with window	ZH7
Tailgate without window	ZH6
Mounting Rails on Roof (Prep for movable roof rack)	3S4
Heated Driver & Single Passenger Seat	4A3
Seat Trims “Mesh” Leatherette	N2Q
Seat Trims “Robusta” Cloth	NOR
Smokers package: 12-V outlet with cigarette lighter, ashtray, and 2 beverage holders in dashboard	9JC
Luggage Nets on Rear Wing Doors	4Y1
Equipment Package “Protection”	YEL
Underbody Cladding for Engine and Transmission, smooth aluminium	YER

**Please note:** Optional Availability is subject to change. Additional options may be fored when particular combinations are selected. The above is used solely as a guideline. Please contact you local Volkswagen Commercial authorised dealership for pricing and producted information.

# Panel van Accessories.

## Heavy Duty Floor Mats.

The innovative Heavy Duty Volkswagen Genuine rubber foot mats are excellent when it comes to absorbing moisture and dirt. The mats are shaped to fit exactly, with wide profiled grooves and a slightly raised edge. Their integral fastening system prevents them from slipping on the vehicle floor. The Volkswagen lettering creates a particular visual highlight. For right-hand drive vehicles.

Part Number 7H2 061 551 B 041 **€53.33**

## Front Mud Flaps.

Long-lasting and durable: The Volkswagen Original mud flaps effectively protect the underbody, side rails and doors against excessive dirt. Moreover, the danger from road chippings and spray is reduced enormously.

Part Number 7H0075111 **€64.24**

## Rear Mud Flaps.

Long-lasting and durable: The Volkswagen Original mud flaps effectively protect the underbody, side rails and doors against excessive dirt. Moreover, the danger from road chippings and spray is reduced enormously.

Part Number 7H0075101 **€85.28**

## Door Wind Deflectors.

The Volkswagen Genuine door wind deflectors for the side vehicle doors enable optimal ventilation of the vehicle interior, thus contributing to your driving comfort. They improve the interior climate and allow you to enjoy circulating fresh air even when it is raining or snowing. When the sun is shining, unpleasant heat build-up is prevented in the vehicle interior and annoying wind noise is reduced when the windows are opened.

Part Number E0072193 HU3 **€95.21**

## Roof Bar Set – 2 Pcs.

Well equipped on the road, thanks to the carrier systems from Volkswagen. The basis for this is the genuine Volkswagen basic support where such articles as ski and snowboard supports, bicycle supports, surfboard supports or the practical roof box can be attached.

Part Number 7H0 071 126 **€373.62**

## Luggage rack.

Just use the roof of your vehicle as an additional loading area: The luggage rack is robust and enables the roof area to be used for transporting bulky goods in an uncomplicated way. Furthermore, it has adequate lashing possibilities and can be loaded with 101 kg. Can be used for vehicles with and without roof rails.

Part Number 7H1 071 204 SWB **€672.98**

Part Number 7H3 071 204 LWB **€686.27**

Rhino are Europe's leading van accessory manufacturer, supplying an innovative range of Roof Racks, Roof Bars, Steps, Ladder Restraints & more for the commercial vehicle market.

Their products are made in the UK to the highest of standards, ensuring the utmost in performance, durability and aesthetics.

## AluminiumRack | Roof Rack

Not enough space in the back of the van? In need of making the perfect use of all of the space you have available on your vehicle? Our "Next Generation" AluminiumRack is the answer to your equipment transportation needs.

- Manufactured From Anodised Aluminium Alloy
- Aerodynamic Crosstubes Reduce Wind Noise & Drag
- Supplied Complete With A Full Width Stainless Steel Roller
- Anti-Rattle Connectors & Aerodynamic End Caps
- Quick & Easy Assembly
- Available To Fit To The Majority Of Today's Commercial Vehicles
- Fits To Vehicles Via The Manufacturers Mounting Points (No Drilling Required)
- TUV Rheinland Certified – 20g Crash Tested

## PipeTube

The PipeTube incorporates strength, style and security to provide the best method of transporting copper pipe, conduit or similarly lengthy materials.

Innovative design and high specification materials have ensured the PipeTube has passed a rigorous testing process.

The PipeTube design enables the transportation of up to 50 x 15mm copper tubes or similar materials.

The Side Mounted PipeTube is only available for modular roof racks in combination with a 3 metre PipeTube.

KammBar® is the latest evolution in roof bar design, and can be fitted to all of Europe's leading commercial vehicles.

Developed using the latest technologies in design and manufacturing, and inspired by the work of Professor Wunibald Kamm Rhino has produced one of the most aerodynamic bar profiles to date. The advanced aerodynamics don't stop with the bar design, as Rhino have also developed a new shaped load stop to work in conjunction with the KammBar®. Two pairs of load stops are supplied with the KammBar® systems.

Each cross tube can carry a weight of up to 75kg which means (in most cases) they are actually stronger than the roof of your van. This means they won't leave you wanting for any other type of roof bar system.

## SafeClamp®

SafeClamp® incorporates strength, speed and style to provide a revolutionary ladder clamping system.

SafeClamp® uses a composite beam structure and stainless steel anchor hook which offers high strength whilst providing excellent corrosion resistance.

The innovative one touch clamping method (patent pending) ensures that the operation is 5 times faster than traditional screw-down ladder clamps.

Supplied complete with key locks, 2 keys supplied (see adjacent image).

## KammBar® Rear Roller System

To complement the KammBar® system Rhino Products have introduced a Rear Roller System to fit to the bars to aid loading and unloading whilst protecting the rear of the vehicle.

The KammBar® rear roller system retains the same virtues as the KammBar® of both strength and modern styling combined, with features such as adjustable supports to allow for the optimum position of the stainless steel roller.

## Modular Rack

The Modular Rack is a fully welded, heavy duty system that allows quick and easy installation using bolted together modular sections.

The rack includes an aerofoil that significantly reduces overall wind noise and drag as well as a full width roller system that aids loading and unloading.

All racks enable the transportation of 8' x 4' boards.

# THE VARIABLE VEHICLE EQUIPMENT

## MADE OF ALUMINUM, STEEL AND PLASTIC FOR MAXIMUM INDIVIDUALITY WITH LOW WEIGHT!

The variable vehicle equipment can be adapted right down to the smallest detail to your working procedures and the stored items. This makes optimum use of the limited space on the vehicle.

This maximum flexibility is achieved with five standard widths, three depths and 30mm height units. The intelligent material mix of aluminum, steel and plastic also saves on weight, which helps to keep fuel costs down. In addition to the variable vehicle equipment, we also offer you modular vehicle equipment for industries with especially heavy loads. Our consultants will be happy to provide you with detailed information on this subject.

The workbench always travels along: It takes up hardly any room in the vehicle itself, and at the place of use it can be pulled out as required with a few quick hand movements and secured with the quick-action retainer.

Quick opening across the entire width: The functional drawer handle enables any drawer to be opened any closed anywhere – without the need to fumble around with small, inconvenient handles.

The practical hinged flaps of the shelves are opened with a handle. Like the covers and the drawer handles, they are made of high-quality anodized aluminum.

Safe storage and organization: Many inserts and orderly sorting systems, along with the patented locking system for the drawers, make sure that your goods remain where they are supposed to be during transport.

### System Block 18

- 1 subassembly with panel
- 1 storage shelf with separating plates and anti-slip mat
- 1 storage shelf with 5 storage boxes (Size 2)
- 1 upper frame element with separating plate and anti-slip mat
- 1 attachment set
- With cutting for wheelbase
- Dimensions (W x H x D): 1,112 x 930 x 380 mm

Total weight: 32,5 kg

**Art. No. 0963 60 818**

### System Block 19

- 1 open subassembly
- 2 storage shelves with separating plates and anti-slip mats
- 1 attachment set
- With cutting for wheelbase
- Dimensions (W x H x D): 834 x 865 x 380 mm

Total weight: 21 kg

**Art. No. 0963 60 819**
