The Transporter Caravelle

Commercial Vehicles

The new Transporter Caravelle
Where innovation meets everyday excellence

New era of passenger transport. For over three decades, the Transporter Caravelle has been the gold standard in professional and private passenger mobility. Now the 7th generation redefines what's possible in one iconic package.

Whether you're running a business, managing a fleet, or transporting family and friends in comfort, the new Transporter Caravelle is designed to move people—and expectations.

Power meets possibility. Choose from a fully electric model for zero-emission driving or a plug-in hybrid for added range and long-distance reliability. Both options are engineered to provide a smooth, confident ride, whether you're navigating city streets or cruising the motorway.

Style That Moves You. Outside, a bold new grille, LED headlights and rear lights, and a refreshed colour range give the Shuttle a modern, confident look. Inside, the Caravelle is a masterclass in intelligent design with space for up to nine passengers.

Technology that works with you. Step inside and you'll find a cabin packed with intelligent features. The digital cockpit includes a crisp 12-inch display, while the 13-inch infotainment system offers seamless smartphone connectivity. Passengers benefit from rear USB-C ports and enhanced climate control, making every journey more enjoyable.

Safety Comes Standard. Volkswagen's latest driver assistance systems are designed to keep you and your passengers safe. Front Assist, City Emergency Braking, Rear View Camera and side airbags are all included as standard. For added confidence, optional features like Park Assist and 360° Area View Camera provide extra support in busy or complex driving environments.

Impressive standard equipment.

All versions include dual digital display set-up, interior lighting with LED technology and air-conditioning with front and rear controls. The Caravelle is equipped with a comprehensive suite of safety features, including front, side, and curtain airbags, Lane Assist, a rear-view camera, and front and rear parking sensors.

Relaxed chauffeuring.

The driver's area is built for comfort and control. With electromechanical power steering, a newly styled dashboard, and a supportive driver's seat with lumbar adjustment, the Caravelle delivers a smooth, stress-free driving experience. Excellent visibility and intuitive controls make it ideal for both city streets and long-distance travel.

Comfort that travels with you.

Inside, the Caravelle is designed to put passengers at ease. Folding armrests, LED reading lights, and generous head and legroom create a welcoming space. The flexible seating layout offers three single seats in the second row and a foldable three-seat bench in the third. Six ISOFIX and four TopTether points are also included for child safety.

Perfectly networked.

The New Caravelle comes equipped for the digital age with We Connect—Volkswagen's suite of connected services designed to keep you informed, in control, and on the move.
From the moment you link your vehicle to the We Connect app, you gain access to a world of smart features. Check your vehicle status remotely, plan service appointments, or locate your Shuttle in a busy car park—all from your smartphone.

Caravelle Life

From everyday to everywhere.

Highlights of the Caravelle Life

- Cruise Control with predictive speed limiter
- Front and rear parking sensors, with rear view camera
- Automatic air conditioning in the cab with manual conditioning in the rear, including control panel in the roof lining
- Anti-theft alarm system with interior monitoring and towing protection
- Driver seat with manual height adjustment, lumbar support, and armrests
- Nine-seat configuration with durable 'Life' fabric upholstery and ISOFIX child seat anchors
- Rubber floor covering in cab and passenger compartment for easy cleaning
- Electrically adjustable and heated exterior mirrors with body-coloured door handles
- LED headlights with separate LED daytime running lights and LED rear combination lamps
- Sliding doors on both sides and wide-opening tailgate for flexible access

Images shown are for illustrative purposes only. Vehicles shown are not IRL specification.

Standard equipment of the Shuttle Life.

Interior
Air con in cab (auto) and rear (manual)
Heated leatherette-wrapped multi-function steering wheel Rubber floor covering in cab & rear

Charging data

Charging	Socket	Charge time approx.*
AC current – Domestic 3 pin socket (up to 2.3kW)	Type 2	31.4 hours 0-100%
AC current – Home wallbox or public charger (up to 7.4kW)	Type 2	9.8 hours 0-100%
AC current – Public charger (up to 11kW)	Type 2	6.6 hours 0-100%
DC current – Rapid charger (up to 125kW)	CCS	39.4 minutes 10-80%

Charging Made Easy
Your e-Caravelle comes equipped with a 5-metre Type 2 charging cable as standard, capable of charging at speeds of up to 11kW AC—perfect for convenient top-ups at home, work, or public charging points.

Keep Your EV Running Smoothly
Electric vehicles are generally lower maintenance, but regular servicing is key to performance and safety. For the Volkswagen e-Transporter, service is required every 24 months—making it a smart, efficient choice for you and your business.

Peace of Mind, Built In
Like most things in life, electric vehicle batteries are subject to natural wear and tear. That's why every all-electric or hybrid Volkswagen comes with an EV battery warranty—covering up to 8 years from first registration. This guarantees your battery retains at least 70% of its original capacity, and the warranty is fully transferable to future owners.

1-Pedal Drive experience
Experience smoother, more intuitive driving with 1-Pedal Drive. This intelligent feature allows you to accelerate and decelerate using just the accelerator pedal—lifting your foot slows the vehicle down smoothly, even bringing it to a complete stop in certain conditions. It's ideal for stop-start traffic and urban driving, helping reduce fatigue while also enhancing energy recovery through regenerative braking.

Comfort That Fits Your Schedule
With scheduled departure times, your e-Caravelle can prepare itself while it's plugged in—warming or cooling the cabin and battery so it's just right when you're ready to go. You can set up to two departure times per day, for each day of the week, using the infotainment system or the Volkswagen app. It's a simple way to make every journey more comfortable and convenient.

*Charging times may vary depending on factors such as ambient temperature, the age and condition of the battery, the type of charger used, and the vehicle's current charge level. Quoted charging speeds are based on optimal conditions.

Consumption, performance and emissions

Electric Caravelle Style long wheelbase						
218PS 65 kWh Electric 1-Speed Automatic	3,350	TBC / TBC	2,000 / 750	5,350	2,561	789

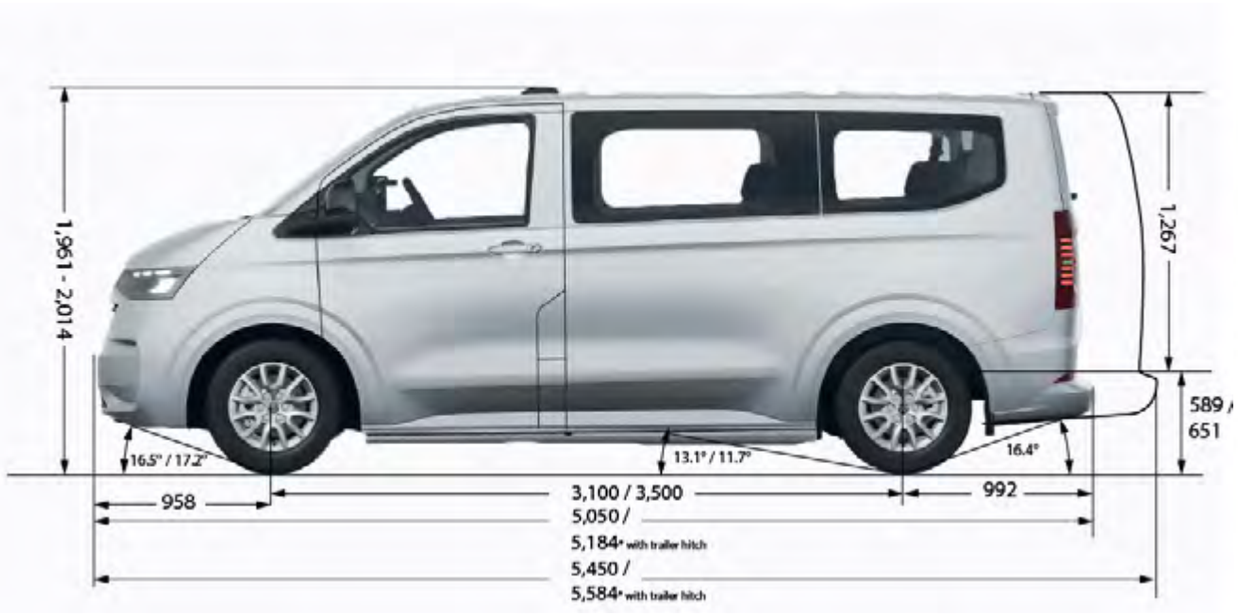

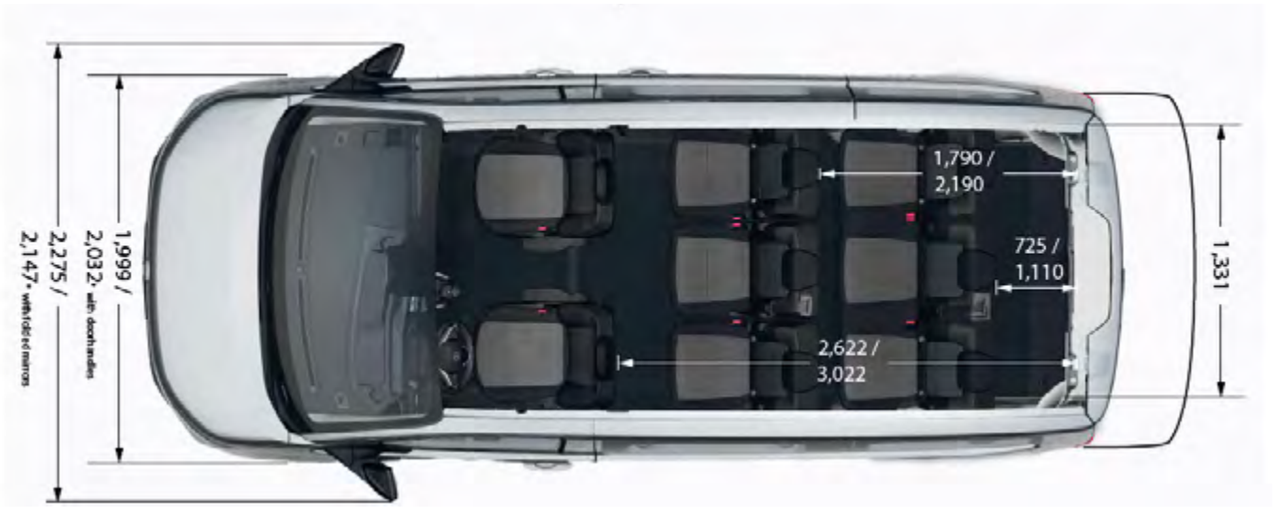

1 Maximum combination weight (vehicle plus trailer load) applies. Maximum gross vehicle weight will vary depending on a number of factors, including optional features, accessories fitted, engine selection and vehicle load. Maximum combination weight and, therefore, maximum gross trailer load is dependent on maximum gross vehicle weight and will vary. Please consult your authorised Volkswagen Van Centre for further information.
2 Unladen weight includes approximately 90% fuel load and 75kg for driver.
3 Payload = gross vehicle weight minus unladen weight. Quoted weights are for vehicles with standard specification. Unladen weight and payload may be influenced by trimline, factory options and Van Centre fitted accessories.
